

Dear Prospective Parent,

Welcome to Discovery Station Learning Center! We are a one of a kind learning center where your child will blossom into an individual through cognitive, psychological, social and activity based learning that focuses on individual learning styles. Our "family" of teachers are excited about educating your children in our state of the art facility! If you have any questions along your childcare journey, please feel free to contact us anytime.

Sincerely,

*Jennifer Berlin - Founder and
Chief Operations Officer*

Our Program

Our program focuses on the natural inquisitiveness and liveliness of young children. Our Discovery Labs foster children's development in language and reading, mathematics, science, social studies, art and messy play, and technology/computers.

Our Staff

Our educators are committed to producing the highest quality preschool and childcare programs for children. We strive to create learning opportunities in a way that promotes self-confidence and self-esteem. We have an in-house training program for each of our teachers and full-time trainers to coach our teachers on a daily basis.

The Discovery Station Difference

We are a brand new state of the art facility that is passionate about satisfying your families needs. Our closed circuit webcams help our parents feel at ease knowing that they can check on their child anytime! With parent education classes, family nights, and tons of opportunities to participate in your child's education, why go anywhere else!

Our Mission

James Baldwin once said "Children have never been very good at listening to their elders, but they have never failed to imitate them." Here at Discovery Station Learning Center, it is our mission to model appropriate behavior that guides children to develop a sense of self. As working adults, many of us forget how important it is to set a great example for children at all times. With that in mind, imagine infant through school-age care that not only meets your child's basic needs, but also cognitive, psychological, social, activity-based learning that focuses on your child's individual learning style.
